

Product D

General Purpose Defoamer

Description

Product D is a specially blended, highly effective, silicone-based anti-foam agent. Using a unique emulsifier system that was designed for metalworking applications, **Product D** has an extended sump life over other silicone based defoamers. It is used in very small quantities where foaming has become a problem.

Performance Benefits

- Extended sump life
- Compatible with most metalworking fluids
- Fast acting.

Recommended Applications & Dilutions

Added sump side, typically eight to thirty two ounces of **Product D** per 1000 gallons of fluid is all that is necessary minimize foaming. Add directly to system in area where foam has become a problem. Not recommended for applications where the parts will be painted or plated.

Characteristics
