

EZDraw X129

Wire Drawing Lubricant

Description

EZDraw X129 is a partially soluble powder lubricant containing viscosity modifiers and EP additives giving the advantage of multiple melting points. EZDraw X129 is manufactured under controlled conditions that ensure product uniformity, low moisture content, and product quality.

Applications

EZDraw X129 is versatile, multipurpose lubricant that may be used in many applications.

- Low carbon and medium carbon steel
- Mechanically descaled and acid cleaned and coated rod
- Borax, Lime, Reactive or Formulated precoats
- Stainless steel wire

Operating Parameters

- Up to 10 holes
- A wide variety of rod breakdown and finished wire sizes
- Works very well in a wide range of speeds
- Works great for nail wire

Properties

Properties	
Appearance	Off white, free flowing powder
Solubility	Partially
% Moisture	1.0 - 2.0 (typical)

Packaging

EZDraw X129 is available in 50 gallon fiber drums, drum sacks and supersacks.
